Simulator

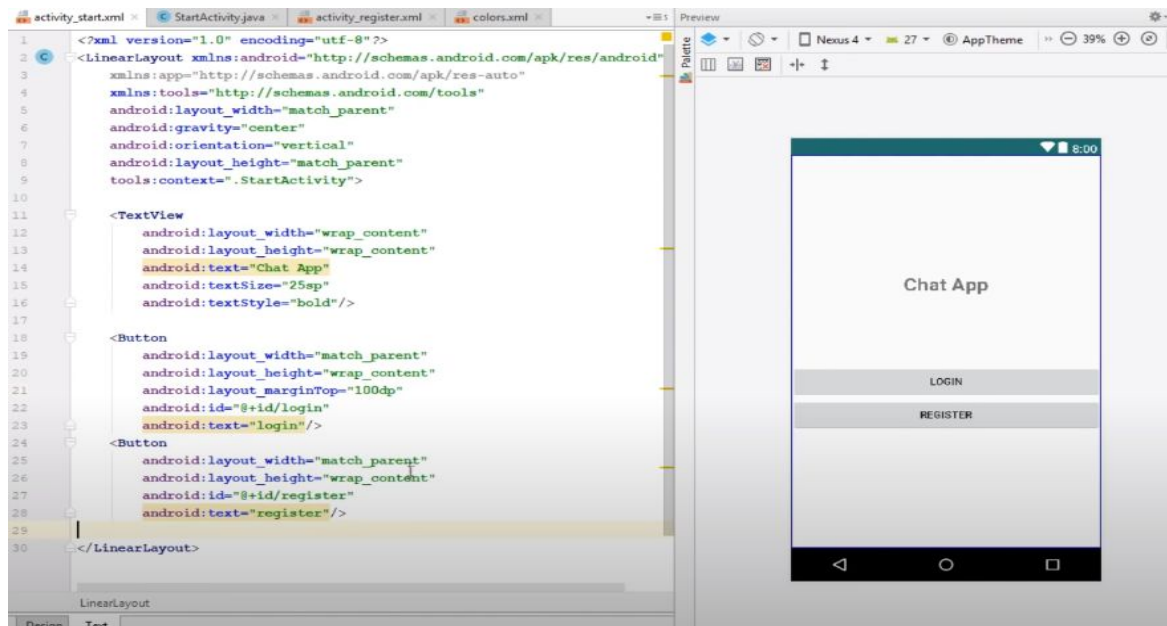

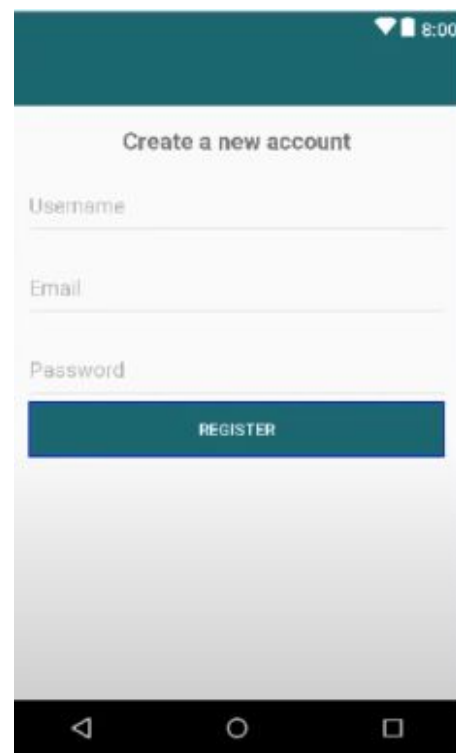

1. 2 Chat App with Firebase Part 2 - Authentication with Email and Password

1. create authentication with email and password
2. first create RegisterActivity

activity_start.xml

activity_register.xml

activity_login.xml

This screenshot shows the login screen. At the top, there is a teal header bar. Below it, the text "Create a new account" is displayed in a small, dark font. The main form area has two input fields: "Email" and "Password". Below the "Password" field is a teal button labeled "LOGIN". The bottom of the screen shows the standard Android navigation bar.

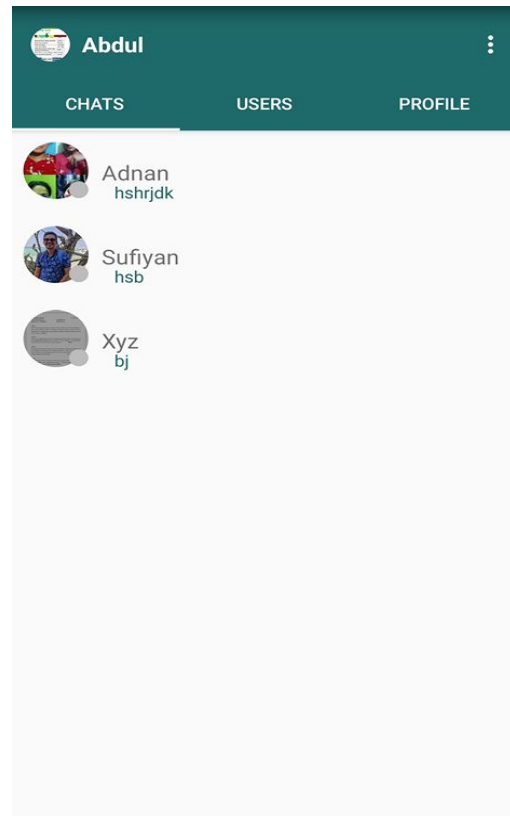

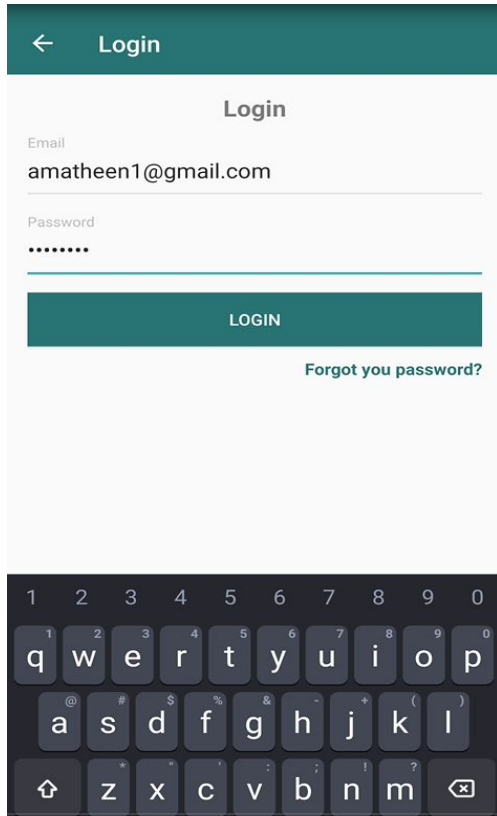

activity_register.xml

This screenshot shows the register screen. It has a teal header bar. Below it, the text "Create a new account" is displayed. The form contains three input fields: "Username", "Email", and "Password". Below the "Password" field is a teal button labeled "REGISTER". The bottom of the screen shows the standard Android navigation bar.

This screenshot shows the login screen with data entered. The "Email" field contains "msufiyanaman96@gmail.com" and the "Password" field contains ".....7". A teal "LOGIN" button is visible. Below the button is a link that says "Forgot you password?". At the bottom, a numeric keypad is visible, showing digits 1 through 0 and various symbols.

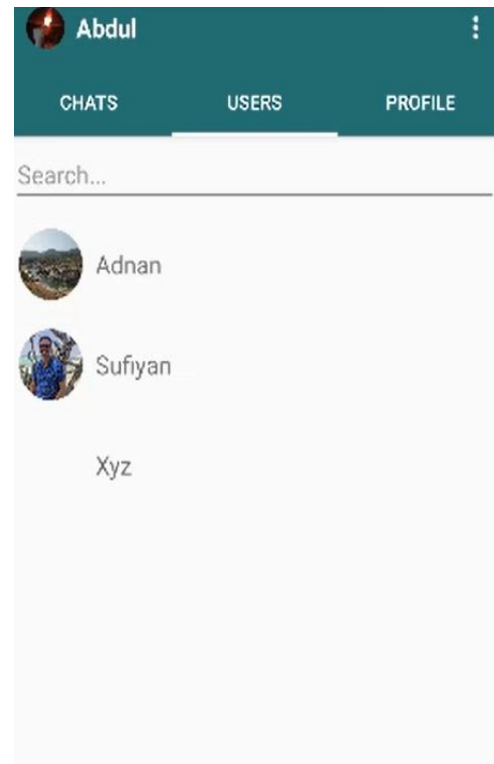

This screenshot shows the register screen with data entered. The "Username" field contains "Xyz", the "Email" field contains "xyz123@gmail.com", and the "Password" field contains ".....3". A teal "REGISTER" button is visible. At the bottom, a full QWERTY keyboard is visible.

1. 3 Chat App with Firebase Part 3 - User Information, AutoLogin and Logout

1. 4 Chat App with Firebase Part 4 - TabLayout and ViewPager with Fragments

- Display chats, users and profile

2. 1 Chat App with Firebase Part 5 - Getting Ready to Chat

2. 2 Chat App with Firebase Part 6 - Display Users with whom you have Messages.

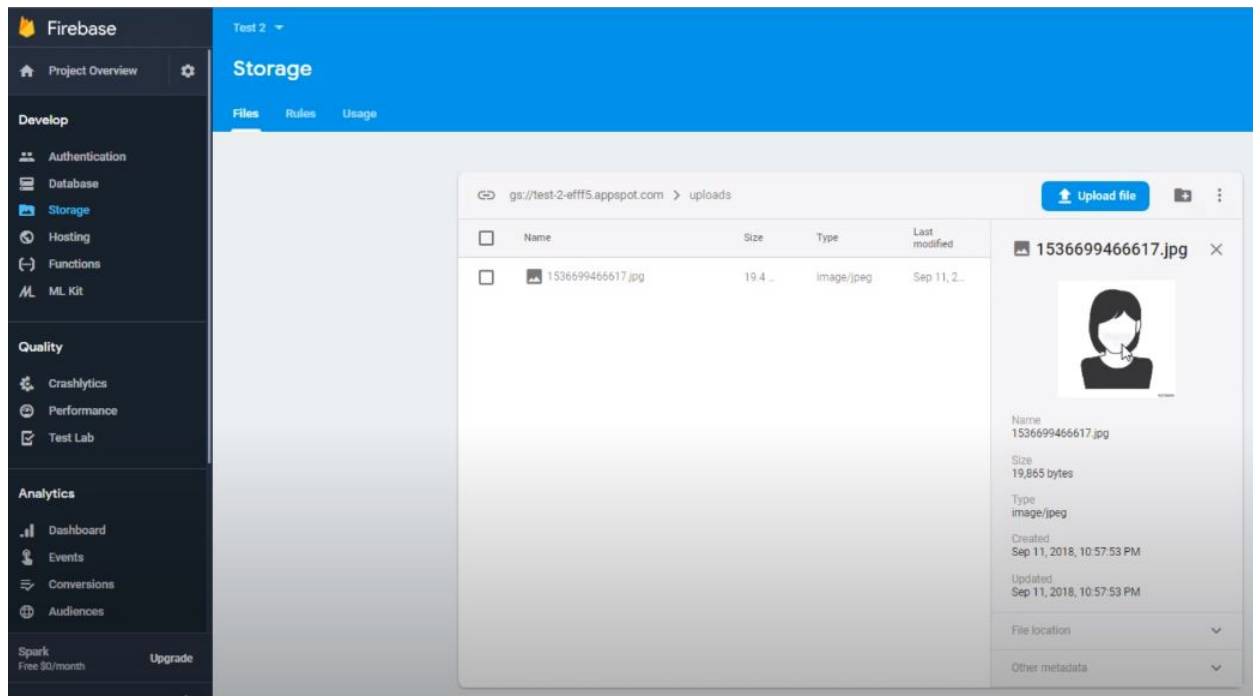

2. 3 Chat App with Firebase Part 7 - User Profile

1. create new fragment and add to TabLayout

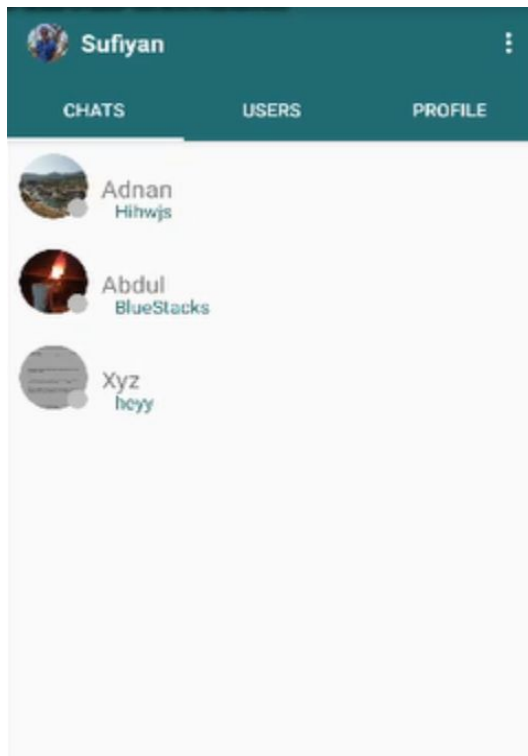

2. 4 Chat App with Firebase Part 8 - Change Profile Photo

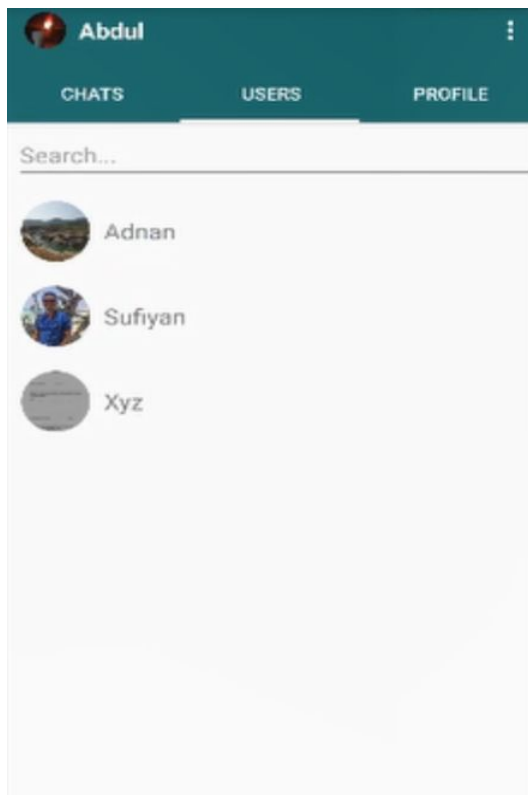

3. 1 Chat App with Firebase Part 9 - User Status Online/Offline

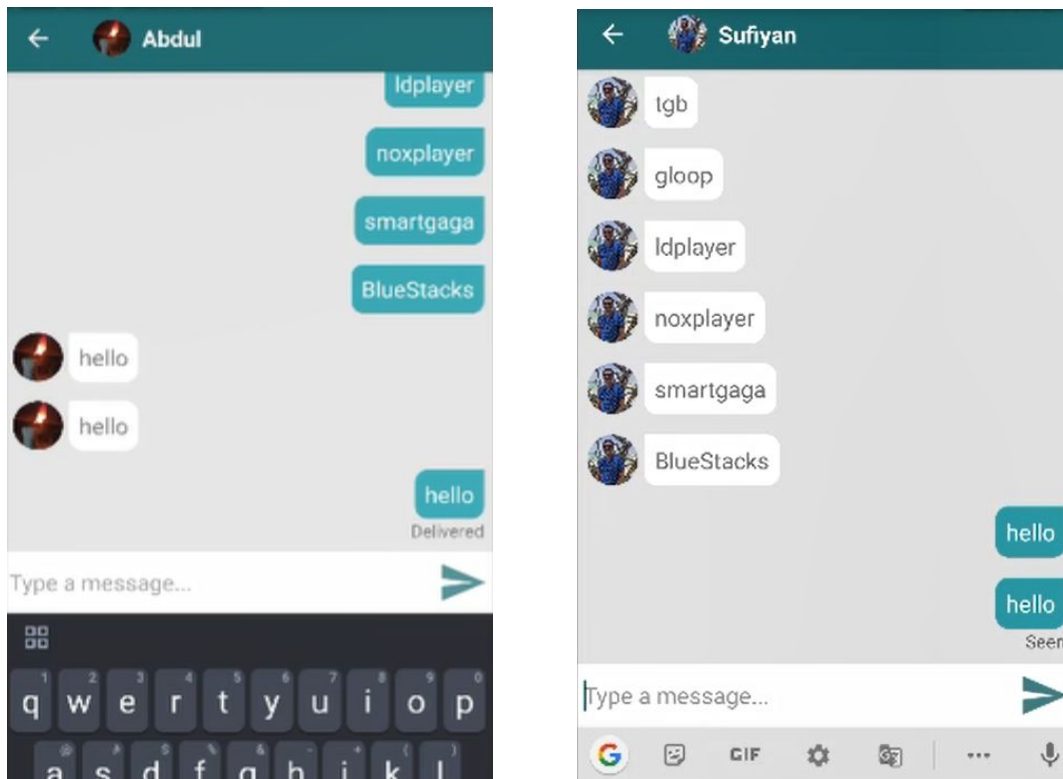

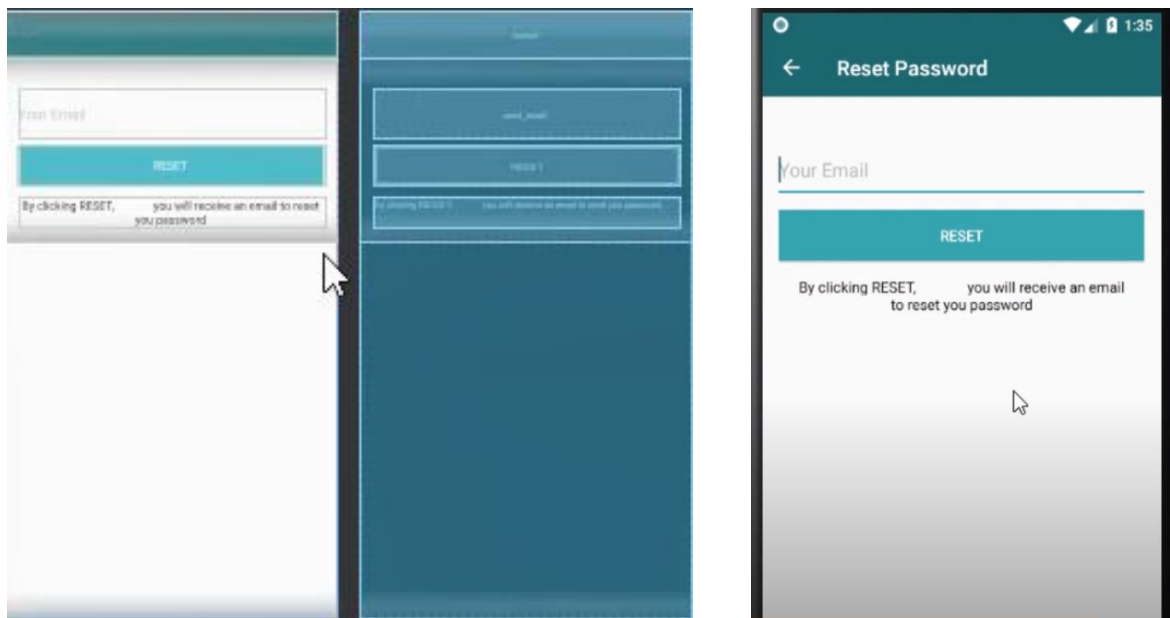

3. 2 Chat App with Firebase Part 10 - how to search Users in the UserFragment

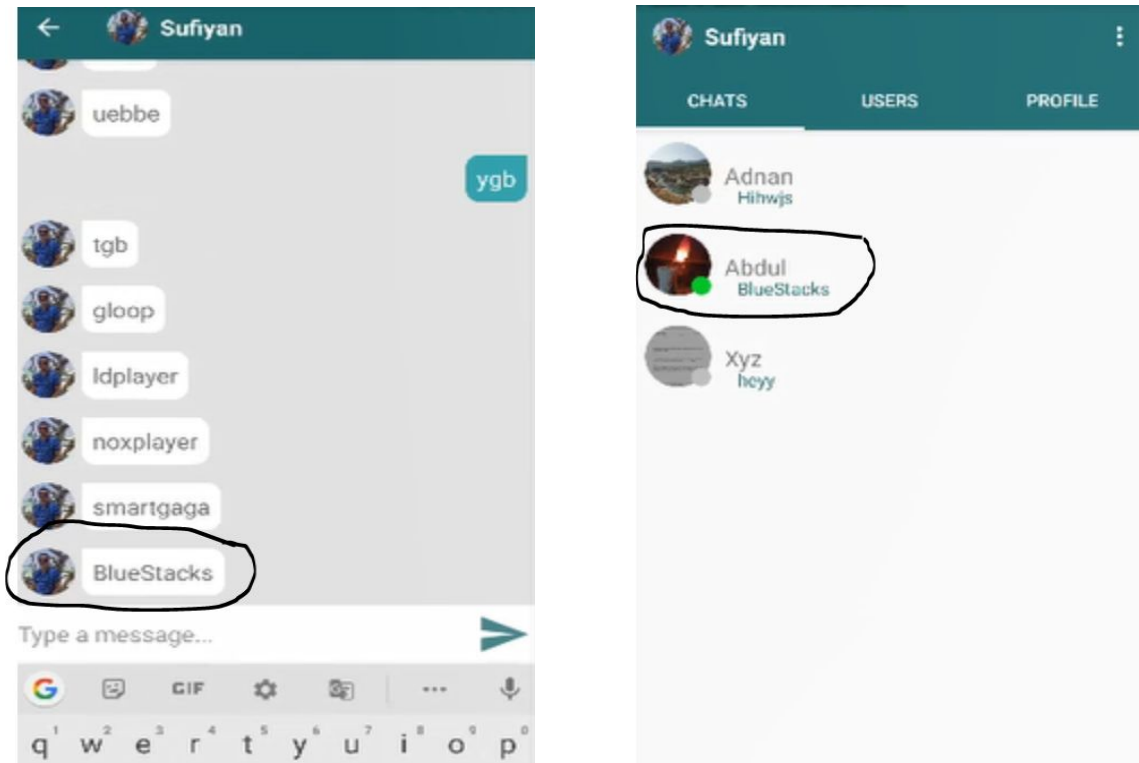

3. 3 Chat App with Firebase Part 11 - Check if User has Seen Message

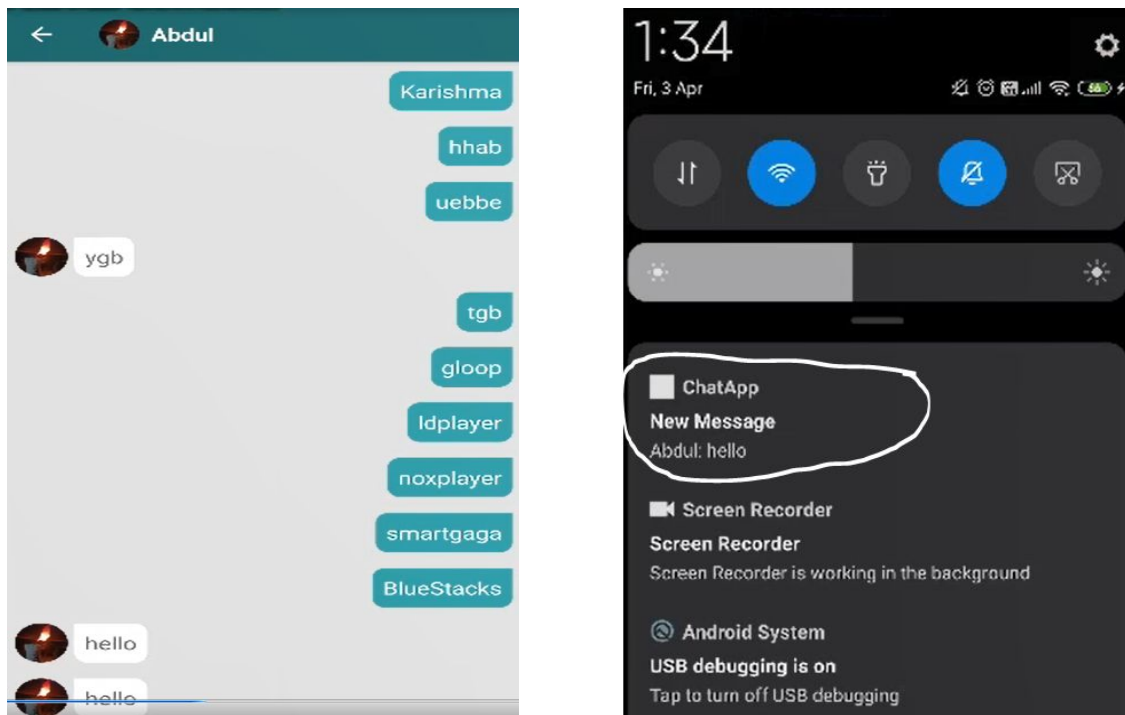

3. 4 Chat App with Firebase Part 12 - Forgot/Reset your Password

4. 1 Chat App with Firebase Part 13 - Display Last Message from Chat

4. 2 Chat App with Firebase Part 14 - Sending Notifications

4. 2 Chat App with Firebase Part 15 - Group Chat

Group Chat is different than private 1-to-1 chatting because of the conversations being open and visible to all team members. This means that any group member can join the conversation, share ideas and link with your team in real-time.
